## INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

ACTION as well as, where applicable, item 3 selow.  International application No.  PCTTID400310  Applicant TECHNION RESEARCH &DEVELOPMENT FOUNDATION LTD  This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.  This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.  This international search report consists of a total of 2 sheets.  It is also accompanied by a copy of each prior art document cited in this report.  1. Busts of the Report  a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.  The international search was carried out on the basis of a translation of the international application furnished to this Authority (kule 23.1(b)).  b. With regard to any nucleotide and/or anino seld sequence disclosed in the international application furnished to this Authority (kule 23.1(b)).  Unity of invention is lacking (See Box No. II)  4. With regard to the difference of the international application in the text is approved as submitted by the applicant.  the text has been established by this Authority to read as follows:  5. With regard to the drawings,  a. the figure of the drawings,  a. the figure of the drawings to be published with the abstract is Figure No.  as selected by this Authority, because the applicant failed to suggest a figure.  as selected by this Authority, because the applicant failed to suggest a figure.  as selected by this Authority, because the applicant failed to suggest a figure.  as selected by this Authority, because the applicant to the abstract.	Applicant's or agent's file reference	FOR FURTHER	see F	Form PCT/ISA/220				
Applicant TECHNION RESEARCH &DEVELOPMENT FOUNDATION LTD  This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.  This international search report has been prepared by this International Bureau.  This international search report consists of a total of 2 sheets.  It is also accompanied by a copy of each prior art document cited in this report.  1. Basis of the Report  a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.  The international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).  With regard to any nucleotide and/or amino acid sequence disclosed in the international application, see Box No. I.  Certain claims were found unsearchable (See Box No. II)  3. Unity of Invention is lacking (See Box No. III)  4. With regard to the tites approved as submitted by the applicant.  the text has been established by this Authority to read as follows:  5. With regard to the dasheract,  the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box No. IV. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.  6. With regard to the drawings,  a. the figure of the drawings to be published with the abstract is Figure No.  as suggested by this Authority, because the applicant failed to suggest a figure.  as selected by this Authority, because this figure better characterizes the invention.	27358		as well as, whe					
This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.  This international search report consists of a total of 2 sheets.  It is also accompanied by a copy of each prior art document cited in this report.  1. Basis of the Report  a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.  The international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).  With regard to any nucleotide and/or amino acid sequence disclosed in the international application, see Box No. I.  Certain claims were found unsearchable (See Box No. III)  3. Unity of Invention is tacking (See Box No. III)  4. With regard to the title, the text is approved as submitted by the applicant. the text has been established by this Authority to read as follows:  5. With regard to the abstract, the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box No. IV. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.  6. With regard to the drawings, a. the figure of the drawings to be published with the abstract is Figure No	PCT/IL04/00310	International filing date (day/ 04 April 2004 (04.04.2004)	month/year)					
This international search report consists of a total of 2 sheets.  It is also accompanied by a copy of each prior art document cited in this report.  1. Basis of the Report  a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.  The international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).  b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, see Box No. I.  Certain claims were found unsearchable (See Box No. II)  1. Unity of Invention is lacking (See Box No. III)  4. With regard to the title,  With regard to the title,  the text is approved as submitted by the applicant.  the text has been established by this Authority to read as follows:  5. With regard to the abstract,  the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box No. IV. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.  6. With regard to the drawings,  a. the figure of the drawings to be published with the abstract is Figure No.  as selected by this Authority, because the applicant failed to suggest a figure.  as selected by this Authority, because this figure better characterizes the invention.								
1. Basis of the Report 2. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.  The international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).  With regard to any nucleotide and/or amino acid sequence disclosed in the international application, see Box No. I. Certain claims were found unsearchable (See Box No. II)  1. Unity of invention is lacking (See Box No. III)  4. With regard to the title,  With regard to the title,  the text is approved as submitted by the applicant.  the text has been established by this Authority to read as follows:  1. The international application in the international application, see Box No. II. The applicant in the text has been established by the applicant.  The international application in the language, the international application in the international application in the international application in the international application in the language in which it was a property in the international application in the	This international search report consists of a total of 2 sheets.							
a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.  The international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).  b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, see Box No. I. Certain claims were found unsearchable (See Box No. II)  1. Unity of Invention is lacking (See Box No. III)  4. With regard to the title,  the text is approved as submitted by the applicant.  the text has been established by this Authority to read as follows:  5. With regard to the abstract,  the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box No. IV.
